

DAILY TOUR

FISHERMAN FOR A DAY!

DESCRIPTION

On one side of the **Trasimeno lake** there is a little fishermen's village where all the men teach to their children the different traditional fishing systems on the lake. However, they know that this activity could easily become a lost tradition such as many others.

The long hours spent waiting and looking at the sky, because a rainy day could mean no fish for the family, were also normal for the past generations. There is still, in any case, a big respect for this activity on the area of the Trasimeno lake. Become a fisherman for a day and learn the secrets of the traditional fishing systems!

In the morning you will leave with the fishermen and their private little fishing boats. Learn how to throw the "giacchio", a special and traditional fishing net.

Waiting for fish, you will be able to visit a charming island on the lake, the **Polvese island**. Today this island is a naturalistic park and it is possible to reach it only by private boats. Therefore, you will have the chance to be guided by the fishermen and listen to their interesting stories about the island. Then, back to the boats, you can check how much fish has been caught and.....part of that will be yours!

In the way back we will stop for a gourmet tasting of croutons and a variety of fried fishes.

In the afternoon we will visit an **old oil mill** in the nearby of the fishermen's village where we will have the possibility to taste an excellent Extra-virgin olive oil.

Here we will also visit the "**Ziraia**", a room where more than ten antique jars are still used for natural decanting of the olive oil.

THE TOUR INCLUDES

- » Full day tour leader
- » Private boat with fisherman
- » Tasting of fish
- » Visit to an oil mill with Extra-virgin olive oil tasting
- » Visit to Polvese island.
