

DAILY TOUR

PERUGIA & CHOCOLATE

Handmade Chocolate

DESCRIPTION

Everyone knows the Perugina factory, currently owned by "Nestle", one of the biggest global companies producing food products. Well.. we are not going to take you there!

Instead, we want to let you experience the **CHOCOFARM**, a small artisanal laboratory near Perugia with passionate experts who will make the visit for you as pleasant as ever!

You will see.. their products might make envious even Nestle colossus, for both taste and quality. At "CHOCOFARM" we will make a guided tour and have a nice tasting.

After having put on the hygiene kit (headset, boot covers, disposable apron) we will enter the lab. The "master chocolatiers" will then show us all chocolate manufacture processes, in order to obtain the finished products.

Afterwards, we will have the chance to **taste** some chocolate specialties and purchase each product at a special price. Each visit lasts about 20 minutes and will involve small groups of maximum 10-12 people.

And this is not all !! Our small factory also organizes chocolate lessons for groups of maximum 5-6 people. You will be involved in the realization of chocolate cream for ganache; with this preparation (assisted by the workers of the factory) you will realize chocolate pralines. The course will last approximately 2 hours.

THE TOUR INCLUDES

- » Half day tour leader
- » Visit to a chocolate laboratory with chocolate tasting OR chocolate lesson
- » Taxes

UPON REQUEST
